Hello Brothers and Sisters,

I'm developing Android apps for various speakers. You may download them freely at Google Play. Most of them are free from ads. You will find all of them on the link below:

<https://play.google.com/store/apps/dev?id=7245846951666906887>

The last one is for Chuck Smith. More than 700 sermons by Chuck Smith in one app. Free and no ads. Link below:

<https://play.google.com/store/apps/details?id=com.johntibell.chucksmithsermons>

I'm hoping that I will be able to continue and develop more apps like this and I plan to update the thread when there are new apps available.

Please pray for this ministry, me and my family. We have 11 children and live in a foreign country, the Kingdom of Tonga . We do this in faith and trust that the Lord will provide.

John

brother John,

Thank you for sharing! It is tremendous work you are doing to share God's Words with many. I encourage saints to support his family and ministry here: <https://www.patreon.com/johntibell>

Looking forward to hear of new apps you have made!

I have have updated most of the Android apps with a completely new version. No more YouTube, just plain audio. Possible to download within the app if you like that better. Make notes etc.

I also added a few more speakers. You will find all of them here:

Today I had to remove Thru The Bible with J. Vernon McGee for copyright reasons. I'm very sorry about that for many reasons. I know it was appreciated by many.

Feels sad since I finally were able to release the new and better version a short while ago.

The ministry have changed their TOS after I created the app.
