

## SermonIndex Support :: SermonIndex Login Issues?

### SermonIndex Login Issues? - posted by sermonindex (), on: 2020/5/14 19:04

Saints,

If anyone is having issues to login to SermonIndex, please notify me. I found a problem to login with Safari browser on the Mac stating the "form was insecure". I am using Firefox browser for now till we fully diagnose the issue and fix it.

If you are not able to login please email me details about the situation to: [sermonindex@gmail.com](mailto:sermonindex@gmail.com). with:

- 1) what operating system and browser you are using
- 2) error message.

Yes, Firefox 76.0.1 is complaining about insecurities due to some images that are not being served from a secure connection (should be https);
