

**Miracles that follow the plow :: Please Pray For Southwest Louisiana****Please Pray For Southwest Louisiana - posted by AbideinHim (), on: 2020/9/21 8:42**

Please continue to pray for Southwest La. that was devastated by Hurricane Laura with 150 mph. Winds. Our home received major damage, but will be repaired.

Please pray that there is no flooding and more water damage from tropical system that will hit the Texas coast today and also affect La.

God has been faithful to us and has met every need. The Lord is softening the hearts of the people, and He is moving in a wonderful way with many acts of compassion and kindness. Many ministries are giving out hot meals and supplies to those in need. A prophesy was released by a prophet in our region at a House of Prayer in which there was a powerful move of the Spirit, that revival is coming to Louisiana and this great revival would spread across the nation. God's great grace and mercy are being poured out in the midst of tremendous destruction.

Brother Mike

I pray for you and your family that the BLOOD of JESUS would be sprinkled over you all and His angels will give you strength and this would bring unity among all the brethren in your area in JESUS Name..

Sister Frannie

How did you fare Mike?

Re: - posted by AbideinHim (), on: 2020/9/23 20:47

Thank you Brothers and sisters for your prayers.

Our home was damaged probably from a tornado that took the roof off of the garage. My Toyota Camry was in the garage, and was not damaged. A crew will be out tomorrow to begin repairs.

It was confirmed that during Hurricane Laura (with winds of 154 mph), Lake Charles had a 40 square mile tornado with wind gust reaching 198 mph. That explains why the billboards were curled like sardine cans.

The eye of the hurricane was 40 miles length. The hurricane itself had 200 tornadoes that came thru SWLA. I reposted this from a weather page.

No way would I stay unless I heard
the audible voice of God.
