"There are workings and manifestations of the Holy Spirit in the life of a believer. You can call them different things if you like. I've always been of the opinion that its better to have it and not know what to call it, than to know what to call it, and not have it..

Martin Lloyd-Jones â€™ read him on the Holy Spirit...let me tell you something young men, young women: do not let anyone rob you of your heritage, and your heritage is this: that you will be filled with the Holy Spirit, and that God will do supernatural things through your life. Don't allow anyone to rob you of that."

â€™ Paul Washer
