I listened to quite a number of his messages. Very uplifting and refreshingly African! He knows the things of the Spirit and the kingdom of God and can explain them doctrinally.

hearing some of the testimony of this man, Gbile Akkani, he tried to find truth, and finally turned only to The Lord to teach him.

In which he was persecuted by the established churches,... but as time went on and they heard his teaching ,repented.

A few years ago when I began to hear him on YouTube, I came in agreement w/ his teaching,... as that is the way the Lord taught/is teaching me.
