"Three weeks after the sudden passing of our father, Pastor Bill Randles, our mother Kristin Randles was given the diagnosis of Stage 3 Triple Negative Breast Cancer. Right in the midst of her grief Mom was forced into the complicated but now much needed world of cancer treatment. This is an unexpected journey for us to navigate with our mom, but we believe God can and wants to heal her. The first thing that has become immediately apparent is that the cost of these treatments is beyond our mother's financial means. We do believe, however, that God can and will provide. This has become quite clear by the outpouring of loving and supportive messages that our mom receives on a daily basis. You see, our dad, Pastor Bill Randles (with mom at his side) had a worldwide ministry where he impacted the hearts and lives of many around the globe with the gospel of our Lord and Savior, Jesus Christ. During these Bible teaching tours, missions, and while pastoring Believers In Grace for 40 years he made many lifelong friends and partners in ministry. These local and far away beloved brothers and sisters in Christ have urged us to make this donation platform for our mother's cancer treatment fund. We are humbled and very thankful when mom shares these daily encouragements with us.

Would you partner with us in prayer? We are asking for wisdom for the doctors and treatment that mom will be undergoing. We are asking for courage and strength as she goes through this battle. We are asking that Mom would continually receive daily comfort for her grief.

Thank you for partnering with us in continuous prayer as well as your loving gifts!

Here's our first answered prayers for mom's recovery and health journey:

The Lord opened the door for her to receive her mastectomy from a highly skilled surgeon on March 11, 2022. We are happy to report that Dr Christa Corn of Phoenix, AZ, completely removed the intact cancer tumors with ample margin. Mom is recovering well. She's a little low on energy and we are learning how best to manage her pain. Through it all she has been in good spirits thanks be to God. She has also begun care with a cancer treatment facility in Scottsdale, AZ. Her main course of treatment will begin the second week in April. We are excited for this and eager to see God at work in and through mom.

Always thanking God for you,

Dara Flecksing, Kristin's oldest daughter, on behalf of our family"
