Testimony of Healing:

At the prayer gatherings in DeQuincy, we have been praying for a man from Texas that has been coming to the meeting s. Only Jesus gets all the glory for any healing, because the corporate Body of believers through the laying on of hands prays the prayer of faith. The Holy Spirit often speaks through the Body through prophesy, words of knowledge and wisdom.

So here is Ed's testimony in his own words:

Ed told the doctor that
was about to do my
endoscopy" be prepared
to be amazed ,you are
not going to find what
you think"
,,,she came
back to recovery and
Said " I am amazed you
do not have the cancer
growth ,it is all gone, we
took biopsies as planned
they will go to the lab for further
evaluations."

Anyone that knows the teaching of the Word, and knows that God never has stopped healing since the birth of the Church would be excited and thankful to God for this testimony. Of course any cessationist would be looking for another explanations as to why this cancer disappeared, any natural reason other than the supernatural healing power of God being manifested.
