I uploaded my praise and worship song on the tube. It is a song that highly lifts God in exaltation.

The very next morning my brother comes very early. We were having tornado storms near him and his power was out. This was in Alabama. He spent the day and took me out to a very expensive dinner. It was a love thing not owe me thing. By faith we receive blessings and needs supplied. So it was really God loving me. He had heard that it would be 4 hours to get power on. This was before 5:30 P.M.. At 5:30 he checked and the power was already on.

Well then he was ready to go and said just keep the groceries he brought. They were on ice though. There was plenty food and treats. He left with a brother hug. God is so faithful to take care of us and uses us to take care of others.
