I'm from upstate, New York. Most of the the Baptist, Church of God, Penecostal, Methodist, Catholic has lost the power of God. People are not getting saved or healed I witnessed things myself where people are going from church to church and not being changed. I'm praying for the power of God to fall not just preaching or singing but God himself. I'm sick in tired going t these worldly and dead churches. They sing the new age songs and believe in psychologist and medicine . Sickness was never the will of God. The will of God is t be set free and healed. It's not like it used to be I miss old time apostolic. Where the church was one and no denomination.I don't know what else to do at this point. They don't preach t he truth.
