praying for our pastors - posted by andres (), on: 2005/8/29 12:37

i know some of us are in churches that seem not to be preaching the whole gospel or are weak in some areas. and we all know that no church is pefect. but instead of leaving and complaing i think we should find men or women in the church who are of the same mind and begin to pray for the leadership in the church. pray for a fire in the leaders. start to preach the gospel around the church inviting people to the church, begin all nite prayer meetings, invlove your pastor or leaders to prayer for you. we need to help uplift or pastors and leaders hands. the only way true change can happen is from the inside. and mabey thats why some of us are in these type of churches. love andy
