I have just finished the book "practicing the presence of God" by brother Lawrence. I recommend this book to all believers who want a closer and a more intimate relationship with Christ.

Definitely Eljaa;

I read this about a year ago, and I'm saddened to say to read something like this and not then make it a part of your life is worse than not reading it at all, a crime I'm extremely guilty of.

this marvelous book can be found here though:

I really should read this again and actually follow the advice this time :-o

May I throw in my vote too?

I read a book with Brother Lawrence's conversations, and had some journal entries from Frank Lubach in it too, which were also fantastic.

A must read, not because it's a classic, but it's a classic because it's a must read... :-D

good book.

the main thing I got from it. 'Think of God in all you do.'

Dish-washing, brushing-teeth (not said), walking down to work...etc. THINK OF GOD during all of these.

What comes to my mind is 'Love God with all your MIND'. (heart, soul, strength..also)
