In meditation this morning I was thinking of all those who "try" to be hot for Jesus. Some try to be faithful at church, some try to read their bibles daily, some try to pray daily, some try to witness, but always trying to do what is right but fall flat... I have a fire place at home and when I get a fire really blazing, and I get REALLY close to the fire so that I feel the fire almost burning me, I began to sweat and get red because I'm really hot... We get hot standing close to the fire place...naturally we will be hot because we're so close to the fire.

Our God is a consuming FIRE. Anything close to God will be naturally HOTTTTT!!!!

so you want to be hot! listen to the word of God and hear it! then go do it! go spread some of that warmth around. hold the light, and be help full to other around you, even if you don't know them, with out seeking your own glory.go help those who are in need with out seeking your own glory.Pick up the cross!
